

GridLoc™ End Clips

GridLoc end clips are polypropylene clips designed with positioning legs and a thin attachment lip. These two unique features allow for an easier repositioning of the muntin bar and a more secure retention of the bar within the insulating glass unit. GridLoc end clips are recommended for Quanex spacer systems.

Colors

GridLoc end clips are available in Black and Gray.

Packaging & Sizes

GridLoc end clips are available in cases of 5,000.

Technical Services

Your Quanex Building Products Representative, in conjunction with your Quanex Building Products Technical Service Group, can provide in-plant training and assistance with special applications.
