The nearly 16,000-seat arena encompasses approximately 470,000 SF. DLR Group’s design for the facility takes full advantage of its site by featuring a multi-story glass-fronted lobby that not only gives passers-by a peek at the activity taking place inside on all levels of the building, but also allows patrons inside the facility to look out to the new development, the Haymarket, downtown Lincoln and Nebraska’s famed state capitol beyond.
TECHNICAL DETAILS OF THE PROJECT

PROJECT MANAGER
Paula Yancey (PC Sports)

CONTRACTOR
Mortenson/Hampton

ARCHITECTS
DLR Group, BVH (Arena Exterior)

IG MANUFACTURER
Manko Windows

TYPES OF GLAZINGS AND QUANTITIES
40,000+ sq ft of IG using Super Spacer
