

One Partner, Meeting all of Your
Engineered Building Product Needs

Quanex
building products

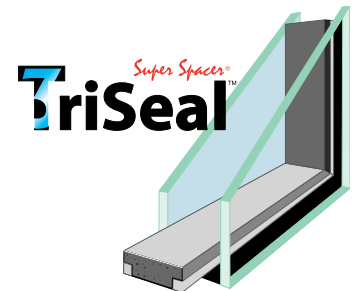

Sustainable, Effective Solutions for Today's Commercial Applications

Insulating Glass Systems

Quanex is a leading manufacturer of insulating glass products, offering superior thermal efficiency and reduced edge-seal stress for extended IG unit performance with:

- Flexible warm edge spacer solutions to support all commercial and residential glazing types
- Super Spacer® TriSeal™ architectural spacer featuring a triple-seal design for maximum IG durability in structural glazing applications
- Streamlined lean manufacturing solutions to provide cost-effective, high-performance glazing

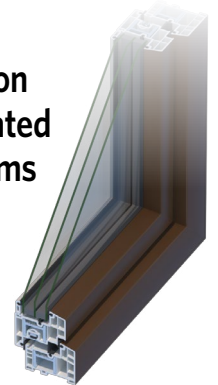

Advanced Window and Door Framing Technologies

We also offer AAMA AW-rated window and door technologies for low-, mid- and high-rise applications.

- Mikron C3-11300 Series AAMA AW-rated non-metallic window and door systems
- SuperCapSR™ color technology for superior durability
- All systems 100% recyclable, cost-effective, and thermally efficient
- Solutions for acoustic, hurricane impact and corrosion resistance requirements
