- Components available in single packs (for your custom sizes and other small orders) or in bulk back (for your standard sizes)
- Packaged economically but yet sturdy enough to survive common carrier
- Order only what you need:
 - Frame
 - Rollers
 - Steel Face Adjust (bottom only or top & bottom)
 - Plastic Spring Adjust (top only)
 - Cornerlocks/Screws
 - Handle/Screws/Rivet/Lockarm
 - Cloth
 - Weatherstrip
 - .165 PVC Spline

Easy 7 Step Assembly

Step 1

If applicable, insert spring rollers in top rail. Face adjust rollers come pre-installed.

Step 2

Slide bug seal in channel on trailing stile.

Step 3

Install locking half of handle on leading stile using lock arm and rivet.

Step 4

Insert cornerlocks into rails, assemble all frame components, insert and tighten cornerlock and all 8 screws.

Step 5

Install cloth.

Step 6

Install other half of handle using 3 black screws.

Step 7

Apply latch strike hardware pack.
