

Are you sick of that rickety screen door detracting from your

Beautiful Patio Door?

*Try the Top Hung High-Performance
Patio Screen Door*

- Durable extruded door in five different configurations
- Unique head track and roller bar design for smooth, quiet operation
- Virtually eliminates threat of dirt in track that can cause frustrating jams or complete derailment
- Unlike other systems, the door can be removed without detaching the head track

Look Familiar?

- Bottom track accumulates dirt and debris
- Complicates door operation
- Jams and derailment likely to occur

But with the Top-Hung Patio Screen Door,

- You get a securely mounted system
- Without the threat of dirt in the track
- Preventing frustrating jams or derailment

Complete your Patio Door with a Perfectly Integrated Screen Door

- High Performance Screen Door rests 80% of the weight along the top roller bar design
- Adjustable height to fit perfectly into your door opening
- Numerous color and mesh screen options

* This schematic illustrates our DuraSlide™ door, however, the Top Hung is also available on our 900, 1250, 1350 and 1580 Series.
